

The Bureau of Justice Assistance Prescription Drug Monitoring Programs at a Glance

In the field, BJA's resources in the area of Prescription Drug Monitoring Programs (PDMPs) serves several critical functions:

- Provides resources for data collection and analysis systems at the state level;
- Provides enhancements funding for existing programs; and
- Facilitates the exchange of collected prescription data among state and local authorities (e.g. law enforcement, occupational licensing boards, certification and regulatory personnel, pharmacists, and physicians).

Washington	Disciplinary Board	Determined by disciplinary authority		\$50,000		Steve Saxe, (360) 236-4829
West Virginia	Board of Pharmacy	II, III, IV		\$350,000	\$124,459	William Douglass, (304) 558-0558
Wyoming	Board of Pharmacy	II, III, IV	\$214,529			James Carder, (307) 234-0294

\*\*These states do not currently have legislation or regulation to establish a PDMP in place.

PLEASE NOTE:

Oklahoma has legislative authority to collect schedule II-V; This change will be incorporated into the operation of the program.

Virginia's program is currently operating in one health district in the state. The program will expand to cover the entire state in 2006.

Washington currently has a triplicate prescription form program. The program applies to licensed practitioners and is used for disciplinary purposes or for disciplinary board supervision of a practitioner's practice.

A Prescription Drug Monitoring Program is defined as a program that is currently collecting prescription data and can respond to requests for reports by those authorized to make these requests  
(*The National Alliance for Model State Drug Laws, 2005*).

Schedules of Drugs Monitored: A list of controlled substances which identify how the substances on each list can be prescribed, dispensed or administered. A substance is placed on a particular schedule after consideration of several factors, including the substance's accepted medical usage in the United States and potential for causing psychological or physical dependence.

The information in this chart is current through of November 17, 2005.

Developed by the National Alliance for Model State Drug Laws under cooperative agreement under 2003-PM-BX-K001 awarded by the Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice.
